

Midwest Electric contact on 12/14/06

I contact John at Midwest Electric (1-800-962-3830) and will send I map for them to mark up to the following:

Paul Rogers
06029 CR 33A
St. Marys. OH 45885

Bill Carter (419-300-1325) called me on December 21, 2006 and said that they have overhead distribution lines along Bible Road at I-75.

Chris,

I hope this will fill your needs of the whereabouts of our line pipe near I75 Lima. My disclaimer is this is not exact. Please treat this as confidential and for your business purposes only. Please call with any questions.

Many Thanks!

Chris-

Attached please find images of the I-75 corridor through Lima and the location of our sanitary sewers. The scope of your project is large, so detail is limited in the attached shots. If you need more detail or less scale, let me know and I can zoom in and look at specific areas.

Please shoot me a quick reply to indicate that you received these photos properly; we have been having some trouble with our email server lately.

Thanks.

RE: Allen 75 Planning Study for ODOT

Dear Mr. Coffield,

Please find enclosed the map you sent to us requesting information, along with our business cards of two contacts. We have reviewed the map and drawn on this map, where our pipeline is located (within the study area). We have no future expansion plans for the pipeline in this area.

If you have any questions, please do not hesitate to contact me or Mike Lerma.

Sincerely,

Mike Keller

Overview of Qwest fiber optic cable running through

Qwest has two high capacity backbone fiber optic ca
75 expansion project in the Lima area. Both fiber optic cables are running south on the I&O (Indiana & Ohio) Railroad. One fiber cable goes west on to Hume Rd. The second fiber cable goes east to Fourth St.. Qwest fiber crosses I-75 at three places in Lima.

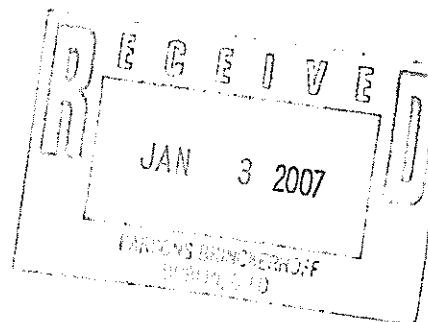

1. Qwest has one fiber optic cable that is running in the railroad right of way and goes under I-75 by Yoder Rd.
2. That same fiber optic cable runs to Hume Rd. The fiber gets off the I&O Railroad and runs west and crosses I-75. At Hume Rd. Qwest bored and installed a 12 inch casing under the interstate. The Prints show that it is 36 inches deep on the east side on the interstate and 102 inches on the west side.
3. At Fourth St. Qwest has another fiber optic that comes off the I&O Railroad and runs east to Greely Chapel Rd.. That fiber optic cable is attached to the Fourth St. I-75 overpass. This is the only place where Qwest fiber is above ground. It is buried everywhere else.

At Greely Chapel it is runs north along the white fence at Steiner Horse Farm. Then it turns east at SR 117.

I am the local Qwest contact. I can help with any questions concerning the location of Qwest facilities in Allen County. Please call me on my cell 419-392-4133 or email me at mike.adams@qwest.com.

However if you have any legal questions or need to have Qwest relocate a fiber optic cable you would need to contact

Twp. Bath & Perry Co. Allen State Ohio

Pursuant to the referenced design message, O.U.P.S. ticket, I have enclosed a map showing the approximate location of our facilities in the area of your project. Also enclosed for your use in project design is a copy of our "Guidelines for Construction Activity on Rights of Way and in the Vicinity of Gas Pipelines."

When plans for this project become available, please forward two sets to the above address.

If you have any questions, or to arrange to have our facilities located for your surveyors, please give me a call.

Sincerely,

Kevin Coppes
